

Better Off Alone

Gentle Bones

I've been feeling so alone
When's it gonna stop?
Gotta quit complaining man
I go through a lot
I don't want none of my petty shit bringing me down
I'm sure you're relating man you go through a lot

But I'm just one of the people that are by your side
And it feels when I'm with you I'm living a lie
You think I simply come through and I don't know why
But I'm not surprised

That you want it easy
When I want it good
But it's with you my good includes
Only this whole time that I thought you understood
Hey
You're saying you're dizzy
From loving me too
But I can never change your moods
Only in my mind that you knew that I wished I could
(And I'm better off alone)
(Alone alone alone)

Now luckily suddenly I had the whole world in front of me
Honestly I could never have seen this if I never stepped out
For it was your world that we're really all about

I'm just one of the people that had caught your eye
Flattered I am but now I've gotta say goodbye
Don't I have to agree to be a ride or die?
But I'm not surprised

That you want it easy
When I want it good
But it's with you my good includes
Only this whole time that I thought you understood
Hey
You're saying you're dizzy
From loving me too
But I can never change your moods
Only in my mind that you knew that I wished I could
(And I'm better off alone)
(Alone alone alone)

Cause I do respect it's your world and I'm just living in it
But do you not know that I should want to visit
Smiles that I make, it's not that I don't mean it
You think that it's fake

Cause you want it easy
When I want it good
But it's with you my good includes
Only this whole time that I thought you understood
Hey
You're saying you're dizzy
From loving me too

But I can never change your moods
Only in my mind that you knew that I wished I could
(And I'm better off alone)
(Alone alone alone)
