

## Connect The Dots

**Gentle Bones**

I like it when you walk into a room and suddenly it lifts the mood

I'm captivated by the things you say and all the little ways you move

You know the way when I'm lost  
Turn me on when I'm off  
Hoping it never stops

Connect the dots  
Fill the space  
Something I can't explain  
Everything making sense  
Starts to falls into place  
And the way you make me  
Feel so good it's crazy  
Laying here at our favourite spot  
Connecting the dots

Nanana nanana  
Nananananana  
Nananananana

You speak a language I wanna hear  
When the whole world calls, I'd rather have you near  
To give me comfort to my troubles, you  
Heal my soul when I'm confused  
And I'm hoping we never stop

Connecting dots  
Fill the space  
Something I can't explain  
Everything making sense  
Starts to falls into place  
And the way you make me  
Feel so good it's crazy  
Laying here at our favourite spot  
Connecting the dots

Nanana nanana  
Nananananana  
Nananananana

I like it when you walk into a room and suddenly it lifts the mood
