

And, and, and, and, and
So my bestie, bye bye bye, do
And I fuckin' love you girl, I ain't kiddin'

If I got colder yet worked all my charms
Would it impress you more?
I'd call to critique where it's best
Then do a Taiwanese and say it sweet with you

What can I do for you
Place these lies in the dirt
Oh my God this girl dropped that dude
What if I say I knew
All my friends are into you
But they've low average standards
Peace and quiet
Symphony drive
Simply says aloud
She's always liked to try true love
Then disclosed on the low that she mapped me best
So I route her home in an instant

When I met her in July
So I left her in July (baby)

Girl it's for the better
It's hard just leaning on my shoulders
And I can't grow much taller
And I can't be farther than the guy that you dreamed of for you

What can I say to you
How's that guy where you work
Oh my God love your new top
And if God may then I would
Find my diamond in the dirt
She just jewellery in fashion

She's jewellery for July
So I left her in July

Girl I care for you
You as a person
You were almost perfect
And yeah, I da da do
And I fuckin' love you girl, I ain't kiddin'
