

# Make It Alright

Gentle Bones

Years have gone but the feelings never left me  
Breaks me at the break of dawn  
Till all my walls come up  
So wait for me, I can heal, if you don't hate me  
It'll be a new me coming up to piece the pieces

Ain't giving up, despite the pressures I feel building  
Just know that I have fallen many times and it won't bring me down  
So how do I do without my past?  
It's saving the future from my last mistake  
You're the risk I must take

Oh, won't you make it alright this time?  
Making it alright with you  
Oh, won't you make it alright? Let's try  
Whatever you want me to

If you loosen your grip  
And I held on more  
You'd see what we do this for  
Loosen your grip and I held on more  
You'd see what we do this for

Maybe it's you or somebody else  
But don't you want me to move on?  
'Cause the old me's dead and gone  
But it's still you I want

So won't you make it alright this time?  
Making it alright with you  
Oh, won't you make it alright? Let's try  
Whatever you want me to

If you loosen your grip and I held on more  
You'd see what we do this for  
Loosen your grip and I held on more  
You'd see what we do this for

And when I come around  
Could you let me make it right?  
Because I don't want to make it through  
Another night without you by my side

So won't you make it alright this time?  
Make it alright with you
