

Put My Hands Up

Gentle Bones

Put my hands up for the girls with an attitude
Falling too fast when they know what they want from you
What is it about her?
That I can't do without her?

Put my hands up when she cool with no make up on
Lord only knows how she moves to her favourite song
What am I supposed to say?
Cause she be everybody bae

Tell me the truth
What do I do
How am I so confused?
Maybe I'll talk to myself and try to get this through
She's all you can't imagine her to be

She's all you can't imagine her to be
Fall back before she happens to want to believe

Put my hands up for the girls with an attitude
Falling too fast when they know what they want from you
What is it about her?
That I can't do without her?

Put my hands up when she cool with no make up on
Lord only knows how she moves to her favourite song
What am I supposed to say?
Cause she be everybody bae
