Gentle Bones

I'm not from here, don't understand
I'm just repainting a vision
Sometimes I wonder, what is my career?
She don't give a damn, she saw my band and that's it
She said it's no mistake, she couldn't keep it calm
Says I should be around, round, round, round her
She looked me in the eyes, put fists up to my mouth
Says "You will be the fa, fa, fa, fa, father" (Of who?)

I think this girl is crazy
But I want her
I think this girl just met me
She pretend she my bird (oh yeah)
I think this girl might just
Be one of them K-pop groups
I think this girl, she clever
She won't leave, she's some jewel
And so

This girl is crazy
But I want her
This girl is crazy
But I want her
This girl

I think this girl is crazy
But I want her
I think this girl just met me
She pretend she my bird
I think girl might just
Be one of them K-pop groups (SNSD? You know TWICE?)
I think this girl, she clever
She won't leave, she's some jewel
And so

This girl
