

## Settle Down

Gentle Bones

Take me out of this phase  
I'm reaching a point I can't even erase  
All of the memories now  
Please let me loose somehow  
You're driving me crazy  
But all I can do is just put up a smile  
It's going to take me a while  
For now  
But how do I heal my soul  
Because it feels so old

But would you  
Settle Down  
Settle Down  
With me now and Forever

Settle Down  
Settle Down  
With me now and Forever

I've been taken aback by the coldness I've got from you  
Tell me is it true that I've been nothing at all  
But I hold you tight and have a walk in that park we've loved  
But the conversation is dry

Oh my God, I'm trying to keep you in love  
But baby come back  
Come back to me

Would you  
Settle Down  
Settle Down  
With me now and Forever

Settle Down  
Settle Down  
With me now and Forever  
Would you love me, would you
