

Store this emptiness aside
There's everything supplied
It's pouring out the sides
There's no room for weaknesses and fear
The strong, they fight, they endure
Lasting longer years

Tonight we'll make it out alive
We'll leave it all behind and stand up
For all we love will always be enough

So have me hide my emotion, hide my pain
For our land that we lay
Our lives upon these never-ending days
All for the very labor and love
Through every hurdle unnerved
Keep the fire burning

They may have put us in this plight
I won't be frail enough to lie
It's our 1965

Tonight we'll make it out alive
We'll leave it all behind and stand up
For all we love will always be enough

So have me hide my emotion, hide my pain
For our land that we lay
Our lives upon these never-ending days
All for the very labor and love
Through every hurdle unnerved
Keep the fire burning

Well, I don't know if I
Can bring my people pride
We'll give it all, we'll give it all
It's us to fight

The legacy you left
In our manifest
We'll give it all, we'll give it all
And ensure that this would blossom in our hands

So have me hide my emotion, hide my pain
For our land that we lay
Our lives upon these never-ending days
All for the very labor and love
Through every hurdle unnerved
Keep the fire burning

It's our time to keep the fire burning
