

VODKA

Gentle Bones

Please just let him know that you cheated
Please just let me know you at least care for him
Drunk side of the road, don't you go bother him
Still, he still follows the closer that you stare at him
How excellent

But with the fear
With each week
Face to faces (He knows it)
Then I want the same thing you've got
Play the fear
He wants to die
And he's the one
Insists that nothing's how it became

Curse the vodka
When you claim it's nothing
Doing the bad solution
What you've been through
In the euphoria
(Keep me on this, boy
He'll know he got somebody)
You've tried him for all I've got
(All I've got)
So please just let him know

He don't gotta know that you call me still
Keep it on the low that we talking still
But I got you on my hotline
Two more and hold on just for show
It's you
Take up all my time, you know
But still at night I'm calling out your name
Like you don't hold that crown
And give me all the hell
What I can't do without
He couldn't
I shouldn't be back without you
Could play it safe but I just say "two more"
And come right back to you

Curse the vodka
When you claim it's nothing
Doing the bad solution
What you've been through
In the euphoria
(Keep me on this, boy
He'll know he got somebody)
You've tried him for all I've got
(All I've got)
So please just let him know

Curse the vodka
When you claim it's nothing
Doing the bad solution
What you've been through
In the euphoria

(Keep me on this, boy
He'll know he got somebody)
You've tried him for all I've got
(All I've got)
So please just let him know

This is a public service announcement
From Manfred, Joel, and Sam
To please enjoy alcohol responsibly
Don't drink and drive
And don't text your ex
