

White Noise

Gentle Bones

Strung ourselves stiff now
Shes running solo, adidas shoes
About time, them crop tops are done now
She'll act all nicer if you do

Except me, they fall on fire
The wind in my hair
Church friends line the side
Heavy betting on you and I
Scrutinizing what I'm dealt
Now no longer

Trial him cold, just us to know
Some flowers bloom alone
Better time wasted on you

Leave me space
Let me have rest for
When you slam open that bedroom door
Take any reaction from you

Party died but I came out to rinse my bowels
Still I can't drown you
(Circle it and swim my demons)

Dizzy suns, should I have slowed
The body beside
Ignores what I kno-o-o-ow
(For I damn swear I left you there)

Sadly, I curse before you
Strut it all, feigning the trials
Hate for me's been driven weak now, darling
Lay it on me for now, no longer
The child is empty
In our whole there's nothing left for us
I'm scrutinizing all imagined
All awaits for us

Meant for these words, maybe drive you
But all I can dream of, be rid of you
Call and reaction, for her
She's screaming where are (you)

Party died but I came out to rinse my bowels
Still I can't drown you
I'm tryna find a maybe
With this cold

Dizzy suns, should I have slowed
The body beside
Is more than I know
For I didn't swear I left you there

That's why I called you
Having maybe talked back in a minute
Almost done with my other crazy

See you're both your likelies

Take it on my nights

And I'mma try push through you

Swear you come over this time and play me that you can't

Go back home

Likely though

But some don't fall in line

Spin around for you

Oh, we can fall, we can fall saying

Party died, the window outside

Is more than you

Can prove
