Gentle Giant

FRIENDS

Where would I be without friends, to take good care of me,
My friends,
What would I do I would be alone
On my own.

(*) Enemies, some say add spice to your life
(*) But I've always hated to be so disliked
(*) I cant see why in this short span of time
(*) Anyone does without friends.

FRIENDS

Will always help when you're feeling down,
On the ground,
You're friends
Will put a shoulder to the wheel
I feel

(*) REPEAT.....

FRIENDS

This is a song to thank you all
For being my good friends,
You only number just a few,
But you are my good friends.
