

## On Reflection

Gentle Giant

In my way did I use you, do you think I really abused you  
On reflection now it doesn't matter:  
How can you say I made you need me more than anyone else  
Who can say it right now it's finished over:  
It's my act, it's my calling, I explained exactly the falling  
Different ways of life can never even:  
Be the same when you saw me, could you always take me the  
same way As I came and went I tried to remember you:  
Still you stay  
Tied in your way  
Changing times  
Watching the signs

How:  
Could you see in me what you thought about all you want me to be  
Now:  
On reflection why should have I changed my ways for you  
All around all around

Cry my sympathy's with you but I never lied to you all in all  
it seems it's just an experience:  
Placed my cards on the table told of everything I was able,

Understanding still not anything different:  
Find another to lean on, start again for I should have long  
gone, on reflection now it's just an experience.  
Soon the pain will have ended, together never intended, as I  
come and go I'll try to remember you.  
Still you stay  
Tied in your way  
Changing times  
Watching the signs  
How:  
All around all around...

I'll remember the good things how can you forget all the years  
that we shared in our way:  
Things were changing my life, taking your place in my life and  
our time drifting away:

Look back it's not your game, together just in name.

I'll remember the good things how can you forget all the years  
that we shared in our way:  
Things were changing my life, taking your place in my life and  
our time drifting away:

All around all around...
