

Everlasting Love

Gentleman

We got something special girl
we've been together so long,
holding together so strong
Like a rock woman mi ready to roll
a fiyah dung in your soul
temperature rise and we lose control
leaving december, nights a cold
you make my wings unfoald
with you I man I want to go old
I need your loving like the winter the spring
always ina mi head
like a song that mi can't stop sing
a blessing it bring
never ever ending thing girl ..
This is everlasting girl
love's stronger like dem days before
singing and rejoycing love
and our ... will be no more
this is everlasting girl
let's walk through that open door
singing and rejoycev together
no holding back no more oh no
