

# They Don't Know

Gentleman

(Oh-oh, yeah-yeah)  
(If they don't know demself)  
(How can I know it for dem?)  
(If they don't know demself)  
(How can I know it? Yeah)  
(If they don't know demself)  
(How can I know it for dem?)  
(If they don't know demself, -self, -self, -self?)

Skylark, if Noah would try that, he never would built di ark  
Skylark, so many road, but still you don't know where to walk  
Skylarkin', action is more than talkin'  
Skylarkin', got to find di way outta di dark  
So many caught in confusion, lost in illusion  
Everyone know when they do wrong, love is the fusion  
Get up and find a solution, go find a solution  
Stay away from the pollution, remember you're too strong

If they don't know demself  
How can I know it for dem?  
If they don't know demself  
How can I know it for dem?

([?] say it again)  
(Used to drink and now I'm dead again)

Tell me how golden di age is  
So many different stages  
Travel di road and di rages  
Turning, we turning, we turning di pages  
Free up your mind, leave the cages  
You got to earn better wages  
Balance di ting with di gages  
Don't get too caught up with all a dem phrases  
So many screw up dem faces  
Leavin' the city, go places  
Dealing with different cases  
Why we still have to argue 'bout races?  
Everyone want to get aces  
Without leavin' no traces  
Turn up the trebles and basses  
Put on your shoes and tie up your laces

If they don't know demself  
How can I know it for dem?  
If they don't know demself  
How can I know it for dem?

([?] say it again)  
(Used to drink and now I'm dead again)  
([?] say it again)  
(Used to drink and now I'm dead again)
