Where is the brotherly love  
Now can we try to find some find some ways now  
To get we out the mud  
Because we tired and enough is enough  
Where is the sisterly love  
Now can we try to find some find some ways now  
To get we out the mud  
Because we tired and enough is enough

Your system sick and the people need a bypass  
You like a flag ina the wind you change your side fast  
The river rough but you know you got to try cross  
While dem ina helicopter fly pass  
There is a never ending nightmare in paradise  
Anybody out there please can i hear a voice  
Anybody out there realize  
Anybody out willing to rise
