

21 Days

Geoffroy

Home in 21 days
Wrote all over the pages
All on my mind, you've been
All on my mind

20 more nights in the way
Countless more pretty faces
But I can't get lost again
I can't get lost

Days gone wasted
I wanted all the action
Times have changed
I'm all soft from your affection

Days gone wasted
I wanted all the action
Times have changed
I'm all soft now

Pulled myself out of my head
To keep you in focus
To finally notice all your signs
I kept feeding temptation
Still needed attention from every girl in town

But I wanna live easy
And I want it with you
Yeah I wanna live easy
And I got it with you

Times have changed
I'm all soft from your affection

Days gone wasted
I wanted all the action
Times have changed
I'm all soft now

It's all I want now
Your soft lips and caring heart
Live our golden years
Slowing down together

Yeah it's all I want now
Your cherry lips and precious heart

Live our golden years
Growing old together

It's all I want now
Your soft lips and caring heart
Live our golden years
Growing old together

It's all I need now
Your cherry lips and precious heart
Live our golden years
Growing old together

It's all I need now
Your cherry lips and precious heart
Live our golden years
Growing old together

It's all I need now
Your cherry lips and precious heart
Live our golden years
Growing old together
