Heard you pulled back from yet another one
Better keep turning the pages for the story to run
Hope you find your way through the highs and lows
Life is a pot of gold down to my mother's soul
And I'm rooting for you
Yea I'm rooting for you

Come as you are, you
Come as you are
No don't change
Come as you are, you
Come as you are
No don't change a thing

Let them swivel alone on their piles of gold
Count your blessings love just your health alone
Might be harder to notice when you're running in circles
But the more you try the less you know
Nothing to lose, face it
Go on get loose

Come as you are, you
Come as you are
No don't change
Come as you are, you
Come as you are
No don't change a thing

How many falls will it take you to notice
How many dead ends have led you on
I know your doubts pull you one way, to the other side
Ain't too late to rectify
Better recognize it

Come as you are, you (all cards on the table)
Come as you are
No don't change
Come as you are, you (no games undercover)
Come as you are
And don't change a thing
