

Closer

Geoffroy

I'll get closer
Try to tell you just how much I'll miss you
I'll go on to find or make up a reason for the bad in our lives

And I don't know why I can't find peace, need an ocean
No I don't know why, I can't find peace anymore

I'll get closer
I'll get close to you

I'll get closer
I'll get close to you

Holding on to each and every hour
To my mother like a child, to my motive
I'll give it time, let it sink in, lean on my friends
For the light will come around in the end

Lying awake, self medicated
I picture you singing to that 60's love song
You still around me
Still watching over your son
Still fighting your war

I'll get closer
I'll get close to you

I'll get closer
I'll get close to you
