

Cold World

Geoffroy

When you look up, what do you see?
People starving
Others starving themselves

All those lives lived in misery
While others buy their way out
Just to taste it again

Oh oh oh oh
Oh oh oh oh

Man it's such a cold world
Good lord
Can we start it all over again?
And love each other
Good lord
Can we try this all over again?
And love, love, love
Love, love, love

And you don't need no bible
To tell the good from the evil
To learn how to care for the old folks
Or worse to prove your love

Oh oh
Don't feed me no prayers
I believe what I see and it hurts

Oh oh
Is hate taking over?
Feels like peace's at a loss for words

Fuck it's such a cold world...
Good lord
Can we start it all over again?
And love each other
Good lord
Can we try this all over again?
And love, love, love
Love, love, love
