

## First Impressions

Geoffroy

First impressions are usually right  
Saw you looking, caught your eye  
If I get on that road, will you rock my boat how I like it?  
Yea I'll belong to you for the night, baby, if you want me to

Just move, baby, move it  
Come and move by my side  
Move, baby, move it  
Come and move by my side  
Move, baby, move it  
Come and move by my side  
Move, baby, move it

No suppressions if the feeling is right  
Time's drifting, lost in the moonlight  
Bless intuition, mine never fails me  
I let it make the calls, let it open doors  
And mine is opening up to you

So move, baby, move it  
Come and move by my side  
Move, baby, move it  
Come and move by my side  
Move, baby, move it  
Come and move by my side  
Move, baby, move it  
Come and move by my side

Move, baby, move it  
Move, baby, move it  
Move, baby, move it  
Move, baby, move it
