

How You Feeling Now?

Geoffroy

How you feeling now?
Now that you walked away, danced around
How you feeling now?
Now that you walked away, danced around

How you feeling now?
Now that you walked away, danced around
How you feeling now?
Now that you walked away, danced around

Girl let your hair down
Come see if love's still floating around
Come lay your head down
Come easy, don't start shuffling around

Cause under your clothes is a place I feel blessed in
I'm doing my best every time not to rush it
Even the score for you walking away
I've been fooled by love

How you feeling now?
Now that you walked away, danced around
How you feeling now?
Now that you walked away, danced around

How you feeling now?
Now that you walked away, danced around
How you feeling now?
Now that you walked away, danced around

I won't come running no more
It's like we've already faded
You got what you wanted, no?
I won't give in to your games
I need my own private space
Still stuck in old ways

I won't come running no more
It's like we've already faded
You got what you wanted, no?
I won't fall for it no more
I need my own private space
Still stuck in old ways

Can't stop my heart from loving you
Can't stop my heart from loving you
Can't stop my heart from loving you
Can't stop my heart from loving you

Can't stop my heart from loving you
Can't stop my heart from loving you
Can't stop my heart from loving you
Can't stop my heart from loving you

How you feeling now?
Now that you walked away, danced around
How you feeling now?

Now that you walked away, danced around

How you feeling now?

Now that you walked away, danced around

How you feeling now?

Now that you walked away, danced around
