

Shakes

Geoffroy

Slippin' into your skin
I caught you, breathing in
Thinking maybe, this time
I should make some time

And you cry out my name as your body shakes

You send shivers down my spine
Found a home in the lust of your eyes
Twisted my toes
How my body flows
Only you know
Oh only you know

And you cry out my name as your body shakes

You send shivers down my spine
Found a home in the lust of your eyes
Twisted my toes, how my body flows
Only you know
