

## Alibi

Geographer

We got a love so easy  
Like water flowin' over stones  
We'll be each other's company  
Until we both get old  
Some days can be harder  
But we find a way to keep  
Our eye on the forest  
And forget about the trees

If I ever lose my mind  
Do somethin' I can't deny  
Would you be my alibi  
And say you were by my side?  
You were with me that night

Remember when I met you  
You used to say I was insane  
But you can't ride wild horses  
If they aren't already tame  
Not everybody is a fire  
Just waitin' for the flame  
Does that make me a liar

If I keep the fire at bay?  
If I ever lose my mind  
Take a step across the line  
Would you be my alibi  
And say you were by my side?  
You were with me last night

Tell 'em they must have the wrong guy  
I got home at half past five  
We been sittin' by the TV light  
Watchin' CSI

If I ever lose my mind  
Do somethin' I can't deny  
Would you be my alibi  
And say you were by my side?

If I ever lose my mind  
If I ever lose my mind  
If I ever, if I ever, if I ever lose my mind  
If I ever, if I ever, if I ever lose my mind
