

Alone Together

Geographer

I just wanna be alone, together
I just wanna get to know, you better
Baby we can take it slow, forever
Wasting all the time, looking in each other's eyes

Baby when I get you on my mind
All I wanna do is give you an alibi
Will you, believe it's true?

When I look a lot like a little child
All I wanna do is keep you by my side
Will you, believe it too?

I just wanna be alone, together
I just wanna get to know, you better
Baby we can take it slow, forever
Wasting all the time, looking in each other's eyes

I keep wearing down the same path in my mind
We got all here when you're walking by
For you, I'll change it too

I just wanna be alone, together
I just wanna get to know, you better
Baby we can take it slow, forever
Wasting all the time, looking in each other's eyes

For you, I'll change it too

I just wanna be alone, together
I just wanna get to know, you better
Baby we can take it slow, forever
Wasting all the time, looking in each other's eyes
