

Get There Soon

Geographer

Find a light, in the darkest room
Give it time, it'll shine on you
I've been told, if you just stay true
Nothing good ever does come easy
But you'll get there soon

How many times, can you fall on your knees
Before you never wanna get up again
And chase your dreams

Somehow, I keep on believing
Oh I'm gonna see something
I've never seen

I believe, I believe, I believe
I'll get there soon
I believe, I believe, I believe
I'll get there soon

I've been trying, to see silver lining
But every time I look up at the sky

I just get blinded

Was it ever really meant to be
Or was it just bad timing?

I believe, I believe, I believe
I'll get there soon
I believe, I believe, I believe
I'll get there soon

I can see I can see I can see
How many of you
I believe, I believe, I believe
I'll get there soon

I'll get there soon
I'll get there soon
I'll get there soon

I believe, I believe, I believe
I'll get there soon
I believe, I believe, I believe
I'll get there soon
