Read My Mind

Geographer

Baby, I could be your acid
I know that you could take me down
Ride all day, all time
Mabye we don't need to test it
Just let my mind and let my heart just roam

If you could read my mind
You could be happy all the time
No feeling left behind
You could believe it all tonight
If you could read my mind

Baby, I don't need a lesson
I just wanna let this ride 'till I blow your mind
Cowards, calling me to listen
They just wanna leave it up to chance or let it lie

If you could read my mind
You could be happy all the time
No feeling left behind
You could believe it all tonight
If you could read my mind
If you could read my mind
If you could read my mind

So does this life go so fast for you and me baby
We were built to last
You don't know
Living for the fear that your running from the past
All we ever do is the best we can
You don't know
If you could read my mind
