

The Boulder

Geographer

I wonder if I know you at all
Or if I really came to talk
Nothing is as it seems in your mind
But that's the only way to get it inside

Let's just take some time with this
Let's just keep a cool head
There's no need to throw a fit

You know what you know
And that's the end of it

It's mine
It's mine
It's mine

It's mine
The ground beneath your feet
It's mine
The words you're whispering
