

## As Long As The Sun Will Shine

George Baker Selection

Loneliness, feelings of pain in your heart  
You're not alone anymore, give me your hand  
Anything I do if you give me your love  
You make my dreams come true, please understand

As long the sun will shine my love, my love will leave you never

As long the sun will shine my love, this dream will be forever  
But stars are cloudily and gray  
Nothing can take us away

As long the sun will shine my love, my love is in your heart  
As long the sun will shine my love, my love is in your heart

You and I are born for a wonderful live  
Say that you will be mine, and I'll be your man  
Your the day and I'll be your night time, my love  
Nothing can be more than this, if only you say

As long the sun will shine my love, my love will leave you never

As long the sun will shine my love, this dream will be forever  
But stars are cloudily and gray  
Nothing can take us away

As long the sun will shine my love, my love is in your heart  
As long the sun will shine my love, my love is in your heart
