

Darling

George Baker Selection

Darling, lay down by my side
It's a long and lovely night
And I'm just a lonely man in town
Every night I do my show
Now I have no place to go
Darling, can't you see that I need you

For this just a one night stand
Tomorrow I'll be gone again
Love me like you never loved before
So lay your body next to mine
And we'll make it through the night
Darling, love me, love me one more time

Well, I'm just a guitar man
Playing in a rocking band
One of the major of the show
Everyday another town
She's not help it makes me down
Only music make go and go

For this just a one night stand
Tomorrow on the road again
Love me like you never loved before
So lay your body next to mine
And we make through the night
Darling, love me, love me one more time
