

# Drink, Drink

George Baker Selection

Night after night I am thinking about you, my darling  
Night after night does the wine stay close to me  
I know it will help me to make it 'til the next morning  
But the next day I am lonely again as can be

And so I drink, drink, drink 'til the night is gone  
Drink, drink, drink 'til the morning comes  
And so I drink, drink, drink 'til I see the sun  
Drink, drink, drink 'til the hurt is gone

Night after night after night drinking, my darling  
Night after night after night hurting myself  
Red wine will help me to make it 'til the next morning  
Red wine will help me to kill all those feelings inside

And so I drink, drink, drink 'til the night is gone  
Drink, drink, drink 'til the morning comes  
And so I drink, drink, drink 'til I see the sun  
Drink, drink, drink 'til the hurt is gone

And so I drink, drink, drink 'til the night is gone  
Drink, drink, drink 'til the morning comes  
And so I drink, drink, drink 'til I see the sun  
Drink, drink, drink 'til the hurt is gone
