

Did You Hear Thunder

George Benson

So how'd it go, your Romeo
Is he everything you desire?
You look confused, well, you're excused
'Cause your senses are still on fire
Before you find you're falling for his charms
What did you feel in his arms?

Did you hear the thunder?
Did your heart do flips?
Is he all you're dreaming of?
If you heard thunder
When he kissed your lips
Sounds to me like you're in love

Hey, baby

Don't be misled by what he said
After all it's just your first night
You might be smart to stop and guard your heart
'Til you're sure your suspicion's right
Before you start shopping for a ring
Just make sure that this is the real thing

Did you hear the thunder?
Did your heart do flips?
Is he all you're dreaming of?
If you heard thunder
When he kissed your lips
Sounds to me like you're in love

Don't you go believing every word
Not until you're sure of what you heard

Ooh, baby

Before you find you're falling for his charms
What did you feel in his arms?

Did you hear the thunder?
Did your heart do flips?
Is he all you're dreaming of?
If you heard thunder
When he kissed your lips
Sounds to me like you're in love

Did you hear the thunder?
Did your heart do flips?
Is he all you're dreaming of?
If you heard thunder
When he kissed your lips
Sounds to me like you're in love
