

## Good Morning Blues

George Benson

Half pass one, you're in for the night  
You had a few but couldn't get right  
Thought you could lose, you're pain to drink  
Funny how a drink can make you think

For the one you love, this time she's gone  
You just can't waste the dawn

Good morning blues  
Good morning blues  
Sun won't shine away  
It did when you were mine yesterday  
Morning blues

You see the dust beneath your bed  
The pillows wet beneath your head  
The spider crawls right up the wall  
And this time she won't be back at all

And your helpless mind is running wild  
You've seen the last of your baby's smile

Good morning blues  
Good morning blues  
Sun won't shine away  
It did when you were mine yesterday

Good morning blues  
Good morning blues  
Good morning blues, yeah  
Walk right on in ...
