

# Starting All Over

George Benson

Remember  
Not so long ago  
We had forever  
Remember when  
Everywhere we'd go  
Always together  
For a while you were alone  
There was no one home  
Waiting for me  
When our love was going strong  
Something came along  
And told you to leave

Starting all over  
Starting all over  
Now we're back where we belong  
Without yesterday  
Starting all over  
Starting all over  
Now we'll never be alone  
And our love will never go away

Remember  
The dream we used to share  
Kept us together  
Remember when  
We used to climb the stairs  
Into forever  
Hey but something went so wrong  
Something came along  
And took you away  
Just erase it from your mind  
Another place in time  
It's just yesterday

Starting all over (Our love will last)  
Starting all over (This time)  
Now we're back where we belong  
Without yesterday  
Starting all over (Our love will last)  
Starting all over (This time)  
Now we'll never be alone  
And our love is coming home to stay

Where in the world did you go  
There must be a way  
To find everything that we have  
To bring it on back to where we were  
Running away we'll never find the answer

Starting all over (Our love will last)  
Starting all over (This time)  
Now we're back where we belong  
Without yesterday  
Starting all over (Our love will last)  
Starting all over (This time)  
Now we'll never be alone

And our love will never go  
(Starting all over)  
Now we're back where we belong  
The past has been and gone  
(Starting all over)  
What could be so wrong  
In starting all over  
Starting all over
