

Too Many Times

George Benson

You has been said I love you so
So many ways around the world
Your songs have ever been
Without fear the words I'm saying: "It's true"
My yesterdays have gone and on
Withouts of you inside each one
There're only memories
'Cause you're not being with me
To share my love

I've tried too many times for too many nights
Without any love from you, girl
I've tried too many times for too many nights
Without any love from you

I've tried so hard to be the one
To give you all the man could give
To make you feel my touch
I love you so much
I always will

I've tried too many times for too many nights
Without any love from you, girl
I've tried too many times for too many nights
Without any love from you

Every chance I had
I gave the very best of me faithfully
But other special love
It was never quite enough for you
For you

I've tried
Too many times for too many nights
Without any love from you, girl
I've tried too many times for too many nights
Without any love from you

I've tried (Too many times)
(Too many times)
For too many nights girl (For too many nights)
Without any love from you

I've tried too many times (Too many times)
For too many nights girl (For too many nights)
Without any love from you girl
