

# What's on Your Mind

George Benson

You can never know  
What's sleeping in someone else's mind  
Looking at you I hope to find  
What's happening in your head

Deep beneath the ice  
may beat another heart  
Baby what's keeping us apart  
Is what we haven't said.

What's on your mind?  
Are you looking for somebody new  
What's on your mind?  
Have you seen the way I look at you  
If you don't let it show  
We may never know  
Just what's on your mind

Hey hey ay

Sometimes you can tell  
It doesn't always take that long  
Baby I don't think I'm wrong  
Looking at you tonight  
Somethings going on  
I can feel it coming through  
And I think you feel it too  
Tell me that I'm right

What's on your mind?  
Are you looking for somebody new  
What's on your mind?  
Have you seen the way I look at you  
If you don't let it show  
We may never know  
Just what's on your mind

(Guitar solo and scat)

If you don't let it show  
We may never know  
Just what's on your mind

What's on your mind?  
Are you looking for somebody new  
What's on your mind?  
Have you seen the way I look at you  
What's on your mind?  
Are you looking for somebody new  
What's on your mind?  
Have you seen the way I look at you
