

While the City Sleeps

George Benson

They've rolled up the sidewalk
Emptied the street
'Til only the lovers all night
Are still on the feet
It's never too late when you come around
You wind me up 'til I can't slow down

While the city sleeps
It's down to you and me
(Down to you and me)
There ain't nothing better
We're up all night together
While the city sleeps

Can you feel my heartbeat
Pounding inside
You don't have to let yourself be
A slave to time
Moments like this seem to go so soon
As long as we're up, let's shoot for the moon

While the city sleeps
It's down to you and me
(Down to you and me)
There ain't nothing better
We're up all night together
While the city sleeps

While the city sleeps
It's down to you and me
(Down to you and me)
(Down to you and me)
There ain't nothing better
We're up all night together
While the city sleeps

While the city sleeps
It's down to you and me
(Down to you and me)
(Down to you and me)
There ain't nothing better
We're up all night together
While the city sleeps

While the city sleeps
It's down to you and me
(Down to you and me)
Nothing better
Up all night together
While the city sleeps...
