

## 1-2-Another

George Clanton

Today's the day we come together  
Finally finding where we want to be  
I hope you never forget I care  
Mm, mm  
But this time

It's a special occasion  
A different equation  
And my love has grown so strong  
I need you to believe  
There's more than enough to share  
Ooh, baby

From 1-2-another  
We're just loving each other  
Don't look any further  
I'm only in your eyes

From 1-2-another  
We're just loving each other  
Don't worry about her  
The pleasure is ours, not mine

Making friends and holding hands  
Who knows if it'll ever be like this again  
I don't want to chance it  
And darling, darling, please just tell me  
Why aren't you willing to adjust  
When she's loving both of us  
When she's loving both of us  
When she's loving both of us  
I can't hardly stand this

From 1-2-another  
We're just loving each other  
Don't look any further  
I'm only in your eyes

From 1-2-another  
We're just loving each other  
Don't worry about her  
The pleasure is ours, not mine
