

All I Need

George Clanton

Out of the way, I'm losing ground
This bitch is so confusing
I'm messing up while she's messing around
I never bet I knew it

She's with me but she wants you
I can't explain how I think this is where we've come to, no
I won't leave, but there she goes
I knew the same and I knew everything that she knows

'Til I'm on my knees
You can pick me up and that is all I need

Another day that I'm [?]
I drink enough to lose it
I wanna touch but my hands are stuck
Can't find a way to do it

I can't breathe to smell your hair [?]
Can't you see it in my face that I wanna be there, oh
I won't leave, she's already gone
I knew the same and I did everything that she's done

'Til I'm on my knees
You can pick me up and that is all I need
Oh
All I need
You can pick me up and that is all I need, oh

All I need
All I need
