

# Aurora Summer

George Clanton

Summer

The heat is waving up the air  
Come here, we don't have to be anywhere  
And I don't care

Summer

Take in, enjoy the view  
Come here, you know that all I wanna do  
Is [?] with you

Jumping off of a place that's tall  
Make a splash and enjoy the fall, you gotta  
Take it in and feel the spin  
Of the world gonna show it we'll remember it  
Somethin' [?] to be with you and me  
That [?] somehow clear to me  
Wanna make sure that you know just how I feel  
This summer

Summer

(Da-da-da-da)

Jumping off of a place that's tall  
Make a splash and enjoy the fall, you gotta  
Take it in and feel the spin  
Of the world gonna show it we'll remember it  
Somethin' [?] to be with you and me  
That [?] somehow clear to me  
Wanna make sure that you know just how I feel  
This summer

Summer
