# BrickByBrick

**George Clanton**

Facing towards the end of time
Feel your fingers press rewind

Why won't you touch my body
That's all I really need
I wanna love somebody
What do you want from me

Let's set the night on fire
My love and your desire
If you'll give me one more day

Let's set the night on fire
My love and your desire
Let the darkness melt away

Towers tremble [?]
Brick by brick we built them off

Why won't you touch my body
That's all I really need
I wanna love somebody
What will you build for me

Let's set the night on fire
My love and your desire
If you'll give me one more day

Let's set the night on fire
My love and your desire
Let the darkness burn away

Help me
Tell me why
Help me
Tell me why

Help me (I've had enough) (You're [?] up)
Tell me why (I've had enough) (You're [?] up)
Help me (I've had enough) (You're [?] up)
Tell me why (I've had enough) (You're [?] up)
Help me (I've had enough) (You're [?] up)
Tell me why (I've had enough) (You're [?] up)
Help me (I've had enough) (You're [?] up)
Tell me why (I've had enough) (You're [?] up)
Help me (I've had enough) (You're [?] up)
Tell me why (I've had enough) (You're [?] up)
Help me (I've had enough) (You're [?] up)

Let's set the night on fire
My love and your desire
If you give me one more day

Let's set the night on fire
My love and your desire
Let the darkness burn away

Let's set the night on fire
My love and your desire
All I need is one more day

Let's set the night on fire
My love and your desire
Let the darkness burn away
