

Can't Believe

George Clanton

So you wanted to know her name
But you're haunted by something you can not explain
And they say "I never wanna keep you down"
But I noticed
You know they'll never wanna keep you around
'Til you try to confess

That we can't succeed in love unless we try
And we can't admit we're hurt so bad when it cuts us down a size
And we can't believe the things we hold inside
Or the way we are regarded

State your motives
Trade your weekend
Change your clothes with something that you look good in
And we know I've been bad
But you're never gonna figure out
Those things that I've said and what they all were about

'Cause we can't succeed in love unless we try
And we can't admit we're hurt so bad when it cuts down a size
And we can't believe the things we hold inside
Or the way we are regarded
