

Dance Decree

George Clanton

Sleep all day then I call my friends
Easy for me
Seems like night life never ends
Don't you agree

Which one's mine, need to get some more
Sixteen steps to the neighbor's door
Fix my hair for the super fun
I get down with the setting sun

You have got to be with this dance decree
Looking for some new affection
And turning in a new direction

You have got to be with this dance decree
Looking for some new affection
And turning in a new direction
