

## Did I Flounder?

George Clanton

Every time I see your face I stutter  
And all the world slows down  
I stay up every night and wonder what I said  
I'm never gonna make it in this town

I see my face is getting older  
And I don't think my luck can change  
You can sit me down and tell me how you think that I should fee  
l  
But you don't  
You don't  
You just laugh and walk away

Did I flounder? maybe  
Did I flounder? maybe
