

# Fang Bangers

George Clanton

Take it from me, I'm the devil's son  
It's not like me to fall in love with just anyone

But your blood's like sugar  
Your blood's like wine  
Your blood's like honey, every time  
I just need someone to bleed for me

You let me take you out  
It's too late now  
I wanna taste your blood  
Like you knew I would

(Ah, ah)

Well, it's been so long, since I've found a friend  
That liked the way my body lives as dead as I am

But your blood's like sugar  
Your blood's like wine  
Your blood's like honey, every time  
I don't need someone to believe in me

You let me take you out  
It's too late now  
I wanna taste your blood  
Like you knew I would

You let me take you out  
It's too late now  
You let me taste your blood  
Like I knew you would

(Ah, ah)

Ah, ah

Fang bangers  
Is what you are  
You watch me dance  
You watch me sleep  
But nobody knows all the pain I am in

Fang bangers  
You're living to die  
You let me kiss  
You let me bite  
And no bodies leaving my party tonight

Fang bangers  
It's what you are  
You watch me dance  
You watch me sleep  
But nobody knows all the pain I am in

Fang bangers  
You're living to die

You let me kiss  
You let me bite  
And no bodies leaving my party tonight

Fang bangers

Fang bangers

No bodies leaving my party tonight
