

King For A Day

George Clanton

In the midst of it all
I'm still not afraid to take a fall
You take the good with the grey
That's the thing between us, I can relay

In the midst of it all
I'm still not afraid to take a fall
You take the good with the grey
That's the thing between us, I can relay
In the midst of it all...

King for a day
You'll do anything I say
That's the upside of your mess up
No matter how you dress up
I'm up there with a plane
'Til it just falls away
You're standing there [?]
Covered by your hair
King for a day

In the midst of it all
You take the good with the grey

King for a day
You'll do anything I say
That's the upside of your mess up
No matter how you dress up
I'm up there with a plane
'Til it just falls away
You're standing there [?]
Covered by your hair
King for a day
King for a day
King for a day
King for a day
