

# Punching Down

George Clanton

What's it feel like?  
What's it feel like?  
What's it feel like?  
What's it feel like?  
What's it feel like?

You will never be the one  
You think you're acting cool  
You look like such a punk to everyone  
That I had to make a song about it  
You look like you're gonna cry  
I see it in your face  
The glimmer in your eye looks out of place  
You're the only one who isn't laughing, uh oh

What's it feel like?  
When you listen to the words  
Don't you wish that you were dead?  
And the music sounds so good  
That it gets stuck inside ya  
What's it feel-?

What's it feel like?  
You know, you know  
What's it feel like?  
Feels like that  
What's it feel like?  
Feels like that  
What's it feel like?  
Feels like that  
What's it feel like?  
Feels like that  
What's it feel like?  
Feels like that  
What's it feel like?  
Feels like that  
Come on
