

Take A Trip

George Clanton

Take, take, take a trip, take a trip back down
Back, back, back down memory lane
Well, anyway
Take, take, take a trip, take a trip back down
Back, back, back down memory lane

Put your hand into my pocket
Take the money out of it
You'll pretend I didn't notice
I'll pretend I didn't care (Well, anyway)
Put the finger on your tongue
Take a trip inside your mind
If it's love that's all around us
Then it can't be hard to find

It's not something you can point to
It's not something you can hold
Heaven knows, heaven knows
It happens all around the world

Take, take, take a trip, take a trip back down
Back, back, back down memory lane
(All around the world)
Take, take, take a trip, take a trip back down
Back, back, back down memory lane
Just another episode, get your ass

Check yourself, bro

You don't even have to tell me
I remember what you said
You might say that you can't feel it anymore
But you can always just pretend
Crush the pill between your fingers
Put the pieces in a line
You said that love was all you needed
Plus whatever got you high

It's not something you can point to
It's not something you can hold
Heaven knows, heaven knows
It happens all around the world

Take, take, take a trip, take a trip back down
Back, back, back down memory lane
(All around the world)
Take, take, take a trip, take a trip back down
Back, back, back down memory lane
(It happens all around the world)

Take, take, take a trip, take a trip back down (Oh)
Back, back, back down memory lane (Oh, oh, eh-oh)
Baby, who the hell are you? (It happens all around the world)
Take, take, take a trip, take a trip back down (Oh)
Back, back, back down memory lane (Oh, oh, eh-oh)
Baby, who the hell are you?

Take, take, take a trip, take a trip back down (Oh)
Back, back, back down memory lane (Oh, oh, eh-oh)
Well, anyway
