George Clanton

We're getting lost tonight
We're gonna lose our way
Seek out a guiding light
To find a place to stay

Talk to the people we pass
I won't remember a thing that they've said
I don't know why I ask
I heard a party exploding ahead

So let's not wait at all
We'll just ignore the girls
It took them forever to call
So we won't wait for them at all
Let's find some other girls
And tell them we're lost tonight

I'm getting lost tonight
Won't help you find your way
Instead I'm losing sight
Of all you tried to say

Follow the youthful hordes
I can't remember the places I've been
Pile in through open doors
I see a stranger is waving us in

So let's not wait at all
We'll just ignore the girls
It took them forever to call

So let's not wait for them at all
We'll just ignore the girls forever- ever
