

## Toss Me Aside

George Clanton

When you got with me  
You said forever and ever  
Took what you could see  
From inside my jealous heart

Stow it away from me  
As long as we're together  
Just waiting for you to slip so far apart

As easy as it is to be a friend of mine  
You toss me aside  
I'm alone with nothing but a smile for the camera's eyes  
You toss me aside

Into the crowd  
Into the crowd  
You toss me inside

Into the crowd  
You toss me inside

Into the night untouched by love  
Touch me with delicate healing  
The light warms from above  
To shine on through the shining stars  
Sleep with me forever  
My life's missing something  
Sleep with me beneath the light of shining stars

As easy as it is to be a friend of mine  
You toss me aside  
I'm alone with nothing but a smile for the camera's eyes  
You toss me aside

As easy as it is to be a friend of mine  
You toss me aside  
I'm alone with nothing but a smile for the camera's eyes  
You toss me aside

Into the crowd  
Into the crowd  
Into the crowd  
You toss me aside
