

# We'll Keep Living

George Clanton

Think it's a dream  
Living in the city all alone (alone, alone)  
When you see the stars begin to fall

How does it feel  
Making yourself pretty all year long (year long, year long)  
When the hour comes to take us all

We'll keep living on and on  
If the world keeps spinning the beat goes on  
Hear my voice and sing along  
If the tape keeps spinning we can't go wrong

Would you believe  
If I never told you who we are (we are, we are)  
We're the last descendants of our kind  
But you and me  
We're still alive (we're still alive, alive)  
All that's left is how we spend our time

Oh, oh oh, oh oh oh  
Oh, oh  
Yeah, oh

We'll keep living on and on  
If the world keeps spinning the beat goes on  
Hear my voice and sing along  
If the tape keeps spinning we can't go wrong

We'll keep living on and on  
If the world keeps spinning the beat goes on  
Hear my voice and sing along  
If the tape keeps spinning we can't go wrong
